CITY OF

BOSTON.

ELEVENTH ANNUAL REPORT

OF THE

BOARD OF FIRE COMMISSIONERS,

FOR THE

YEAR ENDING APRIL 30, 1884.

OFFICE OF THE BOARD OF FIRE COMMISSIONERS,
CITY HALL, BOSTON, May, 1884.

*To His Honor the Mayor and the City Council of the City
of Boston: —*

GENTLEMEN, — In compliance with the provisions of the City Ordinance, the Board of Fire Commissioners herewith presents its Eleventh Annual Report, containing a statement of the fires and their causes, the condition of the department, and expenditures for the year ending April 30, 1884.

ORGANIZATION.

The organization of the department consists of a Board of three Commissioners, a Chief Engineer, a Superintendent of Fire-Alarms, 13 Engineers, and officers and other members, including telegraph operators, to the number of 694 men. During the year several important changes in the organization of the department have been made, viz.: June 30 a ladder truck, of the Hayes pattern, was placed in commission in quarters on Washington, near Dover street, formerly assigned to the Aerial Ladder, which was transferred to Fort-Hill square. A company was organized to be known as Ladder Co. 13. July 10 a steam fire-engine was placed in service in quarters formerly occupied by Chemical Engine

✓

Co. 7, in the West Roxbury District; that company was disbanded and a company was reorganized as Engine Co. 30. July 21 the position of "Inspector" was abolished, and the powers and duties appertaining to the repair of apparatus and the charge of the department repair-shop was assigned to the foreman of the shop, under the title of Superintendent of Apparatus Repairs. July 21 an order went into effect, whereby a permanent substitutes corps was organized and assigned to some permanent company for duty, subject to detail. They are uniformed similarly to the members of the permanent force, and are governed by the same rules and regulations and entitled to the same privileges, their compensation being fixed at the rate of \$720 per annum, to be in full for all services rendered. August 1 the position of Inspector of Hose and Harness was created, with authority to examine into the condition of hose and harness, and have general charge of repairs of same. Vacancies in the permanent force are filled by promotion from the corps. Jan. 17, 1884, the Fire-Boat crew was reorganized on the same basis as engine companies of the permanent force, and is known as Engine Co. 31. March 17 an engine was placed in service in a new house on Bunker-Hill st., Charlestown District, and a company organized as Engine Co. 32. Hose Co. No. 2 was disbanded and its members reinstated, and formed the above engine company.

In addition to the foregoing changes, a Call Assistant Engineer has been appointed, and assigned for duty in the Charlestown District, and Permanent in place of Call Foremen have been assigned for service in Engine Companies 21, 24, and 27.

The department as now organized is as follows :

BOARD OF FIRE COMMISSIONERS

Consists of three members. One member is appointed annually, in April, for a term of three years from the first Monday in May following. The nomination is made by the Mayor, subject to confirmation by the City Council.

HENRY W. LONGLEY, *Chairman*, for three years from May, 1883. Term expires May, 1886.

JOHN E. FITZGERALD, for three years from May, 1882. Term expires May, 1885.

EDWARD A. WHITE, for three years from May, 1881. Term expires May, 1884.

Salaries, \$3,000 each.

Frederick W. Smith, Jr., *Clerk*. Appointed by the Fire Commissioners. Salary, \$1,900.

ENGINEERS.

Chief Engineer, Wm. A. GREEN, Head-quarters, City Hall.

Assistant Engineers.

Joseph Dunbar, Head-quarters, Engine-house	9.
John Bartlett, " " "	27.
Wm. H. Cunningham, " " "	25.
Wm. T. Cheswell, " " "	4.
John W. Regan, " " "	26.
Lewis P. Abbott, " " "	1.
George C. Fernald, " " "	3.
John Colligan, " " "	13.
J. Foster Hewius, " " "	18.
James Monroe, " H. and L. house	4.

Call Engineers.

WM. E. DELANO, assigned to District No. 2.

GRANVILLE A. FULLER, assigned to that part of District 8~ located in Brighton.

JAMES F. ROGERS, assigned to that part of District 10 located in West Roxbury.

CLERKS.

B. F. Underhill, Jr.,

David L. Adamson,

A. Chas. Scott.

FORCE AND PAY-ROLL,

As established by the Board.

1 Chief Engineer	\$3,000 per annum.
1 Assistant Engineer and Inspector of Hose and Harnesses	2,000 "
9 Assistant Engineers	1,600 "
3 Assistant " call	300 "
1 Superintendent of Apparatus Re- pairs	1,500 "
1 Clerk	1,200 "
"	1,100 "
"	1,000 "
1 Veterinary Surgeon	1,320 "

Permanent Force.

31 Foremen	at the rate of \$1,250	per annum.
1 Assistant Foreman	" " 1,000	"
15 " "	" " 3.00	per diem.
32 Engine-men	" " 1,200	per annum.
29 Assistant Enginemen	" " 1,100	"
2 " "	" " 1,000	"
51 Hose and Ladder men	" " 1,000	"
132 " "	" " 3.00	per diem.
13 Permanent Substitutes	" " 720	per annum.
1 Chief's Driver	" " 480	"

Call Force.

16 Foremen	at \$300	per annum.
5 "	" 225	"
1 "	" 200	"
226 Hose and Ladder men	" 225	"
56 "	" 175	"
17 "	" 150	"
31 "	" 100	"

FIRE-ALARM TELEGRAPH.

1 Superintendent	\$2,300	per annum.
1 Assistant Superintendent	4.75	per day.
1 Foreman of Construction	4.50	"
3 Operators	4.00	"
1 Repairer	4.00	"
1 "	3.75	"
1 Assistant Repairer	3.25	"
1 " "	2.75	"
1 " "	2.50	"
1 Carpenter	2.50	"
1 Battery-man	600	per annum.

FIRE DISTRICTS.

The city is divided into Ten Fire Districts, as follows : —

DISTRICT 1. — Comprises all that part of Boston known as East Boston.

DISTRICT 2. — All that part of Boston formerly known as Charlestown.

- DISTRICT 3. — All that part east of a line beginning at the Charles-river drawbridge, and running through the centre of Charlestown street, Haymarket square, and Washington to Summer street, and north of Summer street and the N.Y. and N.E. R.R. passenger depot to the water.
- DISTRICT 4. — All that part west of District 3, and north of a line running through the centre of Winter and Park streets, and west of Beacon, to Arlington street, west side of Commonwealth avenue, to Chester park, to water.
- DISTRICT 5. — All that part south of Districts 3 and 4 to the centre of Dover-street drawbridge, and a line running through the centre of Dover, Berkeley, Boylston, east side of Commonwealth avenue, to Arlington, to Boylston street.
- DISTRICT 6. — All that part of Boston known as South Boston.
- DISTRICT 7. — All that part of Boston south of District 5, to the centre of Albany street, thence through the centre of Albany, Northampton street, Columbus avenue, and Chester park, to east side of Commonwealth avenue, to centre of Berkeley, to Dover street.
- DISTRICT 8. — All that part south and west of District 7, to the boundary line of West Roxbury, and west of Washington street to the Brookline boundary line, and including all of Ward 25, formerly Brighton.
- DISTRICT 9. — All that part south of Districts 6 and 7, to West Roxbury line, running through the centre of Blue Hill avenue, Columbia, Green, Bowdoin, Church, and Commercial streets, to Dorchester avenue, thence due east to the water.
- DISTRICT 10. — All the southerly part of Boston south of Districts 8 and 9, including West Roxbury.

ASSIGNMENT OF DISTRICTS.

Each district is placed under the charge of an Assistant Engineer, as follows : —

District.	Engineer in Command.	COMPANIES IN DISTRICT.			
		Engines.	Chemical Engines.	Hook and Ladder.	Hose.
1	Joseph Dunbar	5,*9, 11	. . .	2	6
2	John Bartlett	*27, 32	. . .	9	1, 3, 4
3	Wm. H. Cunningham . .	8,*25, 31	. . .	8, Hayes' Truck, Aerial.	. . .
4	Wm. T. Cheswell . . .	Tower, *4, 6, 10	1	1	8
5	John W. Regan	7,*26	2
6	Lewis P. Abbott	*1, 2, 15	. . .	5	9, 10, 12
7	George C. Fernald . . .	*3, 22, 23	. . .	3, 13	5
8	John Colligan	*13, 14, 29	3, 6	11, 12	7
9	James Monroe	12, 17, 21, 24	5	*4, 7	. . .
10	J. Foster Hewins	16,*18, 19, 20, 23, 30	4	6, 10	. . .

* Head-quarters of District Engineer.

HOUSES.

The houses of the department, with few exceptions, are in good condition. All the inside repairs are made by members of the department, the permanent force containing representatives of almost every trade ; the work is done well and without delay, and with less expense to the city than could be done otherwise.

With a view to the comfort of the men and horses, and to facilitate the ready response to alarms, all the latest improvements have been introduced into most of the houses.

During the year a new house, with modern improvements, has been built, from plans by the city architect, on Bunker Hill street, in the Charlestown District, and is now occupied by a company known as Engine No. 32, and arrangements are being completed for the erection of a new house for an Engine and Ladder Truck on the Back Bay, corner of Boylston and Hereford streets, during the coming year.

The following statement shows some of the repairs and improvements made during the past year : —

REPAIRS OF HOUSES, MAY, 1883, TO MAY, 1884.

Engine No. 27. — Repairing stable floor, lower part house whitened and painted, outside doors painted and grained. "Electric pulls" to all stall-doors, sleeping-rooms, smoking-rooms, and gongs.

Hose No. 6. — Stall turned to face apparatus, "new-style stall-doors;" smoking-room enlarged. House whitened and painted throughout, plumbing put in good order.

Engine No. 22. — New heating apparatus, new-style doors to all stalls; new *drying*-room, with steam heat, for drying fire-clothes. Steam pipes and new ropes in hose-tower. New hard-pine floor in engine-room and stable. Iron railroad-track. Sliding-pole. House whitened, painted, and grained; outside doors painted and grained. Electric pulls for stall-doors, sleeping-rooms, smoking-room, and gongs and clock.

Hose No. 4. — House whitened and painted. Stable repaired.

Engine No. 4. — House whitened, painted, and grained.

Engine No. 1. — House whitened, and front doors repaired.

Ladder No. 5. — House whitened.

Hose No. 10. — House whitened and painted.

Engine No. 6. — House whitened, painted, and grained. New bedstead and bedding. Extra sliding-pole. Electric pulls to all stall-doors, sleeping-rooms, smoking-room, and gongs.

Engine No. 5. — House whitened, painted, and grained.

Engine No. 11. — Part new floor in engine-room whitened; new front doors painted and grained.

Hose No. 3. — New hard-pine floor in house and stable; stall turned to face apparatus; new-style stall-doors. House whitened, painted, and grained, and put in A No. 1 order.

Engine No. 15. — Lower floor whitened and painted. Walls of stairway and entry newly papered.

Engine No. 23. — Roof raised three feet entire. Six windows cut through brick wall. New copper gutters. Sleeping and smoking rooms enlarged; sleeping-room for captain enlarged. Extra sliding-pole. New flight stairs from smoking-room. New hard-pine floor in engine-room and stable. House whitened, painted, and grained throughout. Plumbing repaired. "Electric pulls to stall-doors, sleeping and smoking rooms, gongs and clock."

Hose No. 9. — House whitened and painted.

Hose No. 12. — House whitened and painted, and new sliding-pole.

Ladder No. 9. — Part new timbers and floor on lower story ; outside doors painted and grained.

Ladder No. 1. — House whitened, painted, and grained ; new stable floor of hard pine, iron railroad-track, electric pulls to stalls, sleeping-room and smoking-rooms.

Ladder No. 13. — New hard-pine floor, iron railroad-track, new closets, sliding-pole. Electric pulls to stalls, sleeping and smoking rooms. House whitened, painted, and grained throughout.

Water Tower. — New stalls to face apparatus ; new-style stall-doors. House painted and grained.

Engine No. 30. — New stalls to face apparatus ; new-style stall-doors. House painted and grained throughout ; new furniture, bedding, etc.

Hose No. 8. — House whitened, painted, and grained throughout ; stalls changed.

Chemical No. 2. — House whitened, painted, and grained. Electric pulls to stalls, sleeping and smoking rooms.

Engine No. 18. — New-style stall-doors, painted and grained, outside doors painted and grained.

Engine No. 26. — Part new hard-pine floor in engine-room, new floor in stable, iron railroad-track. Electric pulls put in perfect order.

Engine No. 25. — House painted, whitened and grained throughout, beds and bedding put in perfect order ; new hard-pine floor in engine-room and stable, iron railroad-track. Electric pulls to stall-doors, sleeping and smoking rooms, gong and clock.

Ladder No. 8. — House whitened, painted, and grained throughout, new hard-pine floor in engine-room and stable, iron railroad-track. Electric pulls to stall-doors, sleeping and smoking rooms, gong and clock.

Engine No. 3. — Lower floor whitened, painted, and grained, new-style stall-doors, new hard-pine floor in engine-room, iron railroad track, doors painted and grained. Electric pulls to stall-doors, sleeping and smoking rooms and gongs.

Ladder No. 3. — New-style doors to all stalls, and painted and grained, new hard-pine floor in ladder-room, iron railroad-track, new windows in partition between Engine 3 and this house. Lower part of house whitened, painted, and grained. Electric pulls to stalls, sleeping and smoking rooms and gongs.

Engine No. 32. — Hot and cold water in stable, extra water-closet in basement, coal-bins, steam heat in hose-tower, patrol platform and desk. Electric pulls to stall-doors, sleeping and smoking rooms and gong. New drying-rooms

for drying fire-clothes ; new-style door-pulls for front doors, for opening and closing same.

Engine No. 7. — Cellar made water-tight, partitions removed and sleeping-room enlarged, captain's room enlarged and set-bowl of hot and cold water placed in same, hose tower removed, three new windows added to house outside, large glass skylight in roof, water-works for hot and cold water added throughout, stable enlarged, new timbers and hard-pine floor in stable, new hard-pine floor in engine-room, iron railroad-track, new patrol platform and desk. Electric pulls to stalls, sleeping and smoking rooms and gongs. House whitened, painted, and grained throughout.

The following property is in charge of the Board of Commissioners of the Fire Department : —

ENGINE-HOUSES.

	Location.	No. of feet in lot.	Remarks.
No. 1 . . .	Dorchester street	5,698	Addition built, 1874. Municipal Court, South Boston, and two classes Bigelow School, in this building.
2 . . .	Cor. of O and Fourth street .	4,000	
3 . . .	Bristol st. and Harrison ave. .	4,000	H. & L. No. 3 in this building.

13 . . .	Washington, near Dover st. .	1,007	
	Harrison avenue	3,755	Formerly occupied by H. & L. No. 3. Now used as a repair-shop.
	Eustis street	700	Occupied as storehouse.

Fuel-house, Salem street, 417 feet of land.

Land for repair-shop, cor. of Albany and Bristol streets,
8,000 feet.

APPARATUS REPAIR-SHOP.

The following statement shows some of the important repairs made at the shop during the year ending April 30, 1884:—

General Repairs.—Engines 4, 8, 13, 15, 26, 28, and Mystic Relief 2, and the Fire-Boat, Ladder Truck 3, and 2 coal-wagons.

Extensive repairs have also been made on Engines 6, 10, 17, 24, 25; Relief Engines B and D; Hose-Carriages of Engine Cos. 3 and 28, and Hose-Carriages 3, 4, 6, and 7; Ladder Truck 7, and on coal-wagons 5, 11, and 15.

Alterations were made in the new Hunneman and new Silsby engines and the tanks of Chemical Engine 4.

Work was also done on Berry and Speddy harness appliances, on hydrant chucks and heaters, and floor-rails and other house repairs.

For the Fire-Alarm Telegraph 50 wall-brackets and the magnetic parts to bells were made.

A new supply-wagon was built. Engines 15, 17, 24 were furnished with new boilers, and the old Mystic Engine, now Engine 3, which had been out of service for many years, has been completely overhauled, and furnished with new boiler and running gear, and is now as good as new.

During the year the following new apparatus has been added to the department:—

2 Hayes extension ladder trucks; 1 third-class Silsby steam fire-engine; 1 Hunneman steam fire-engine; 1 second-class Amoskeag steam fire-engine; 4 Ryan hose-wagons; 2 coal-wagons; 2 supply-wagons, one of which was made at the Fire Department repair-shop; 1 buggy; 1 engineers' wagon. In addition to the above apparatus, which has been delivered to the department, contracts have been made to furnish 1 second-class Amoskeag; 1 third-class Silsby steam fire-engine; and 5 Ryan hose-wagons.

The use of the wagons in the department for some years has demonstrated their utility over the hose-carriage which is in use in nearly all departments; they are lighter, cost less by one half, are more expeditious, and can be utilized in cases of large fires as supply-wagons or ambulances, and the hose shows no perceptible deterioration by this method of keeping on the wagon as compared with that of the reel.

In a few months the old-fashioned "Jumper" will be a thing of the past in this department, and every engine company will be supplied with a hose wagon or carriage.

An appropriation for the building of a new repair-shop has been made, and plans furnished by the city architect

contemplate the providing of suitable accommodations to cover the requirements of this important work.

The cost of maintaining the repair-shop during the year was		\$18,445 96
Less old material exchanged for new		1,243 88
Total		<u>\$17,202 08</u>

Distributed as follows :—

Repair of apparatus		\$14,160 22
Fire-alarm telegraph, and bell and clocks		289 02
Engine-houses, hose and harness shop		2,492 62
Tools, and small supplies, hydrants and reservoirs, etc.		260 22
Total		<u>\$17,202 08</u>

HOSE AND HARNESS.

The cost of maintaining the hose and harness shop during the past year has been		\$2,531 91
Less old material exchanged		355 83
Total		<u>\$2,176 08</u>

During the year 10,000 feet of hose were purchased, and 8,595 feet condemned. The amount of hose now in use is as follows :—

Rubber	6,650
Cotton	47,200
Leather	5,600
Linen	1,100
Chemical	3,650
Suction	950
Total	<u>65,150 feet.</u>

HORSES.

The number of horses in the department is 162. During the year 3 horses have died, 24 have been exchanged, and 37 have been purchased.

The horses, stables, shoeing, and feed, etc., come under the inspection of the hospital surgeon, and any gross neglect

or abuse of horses, either in quarters, or going to or at fires, which come under his observation, is at once reported to the Board.

WATER AND HYDRANTS.

The total number of hydrants in the city, May 1, was 4,669. In addition to these hydrants there are 238 fire reservoirs in different sections of the city, that contain from 300 to 500 hogsheads of water, and can be used in an emergency. The number of hydrants added during the year is as follows:—

39 Lowry, 77 Post, 34 Boston, and 62 Boston Lowry. The amount paid by this department for water and the care and maintenance of hydrants was \$90,180, or at the rate of \$20 per hydrant.

FIRE-ALARM DEPARTMENT.

The new construction and repair work done by this department, for the year ending April 30, were as follows:—

Circuit No. 12, in Charlestown, was entirely rebuilt last summer in the most substantial manner, and affords greater protection and more efficient service in case of fire. It was divided into two independent circuits, so located as to their route that the boxes nearest each other alternate on each circuit so far as it was practicable. These new circuits are numbered 12 and 16.

Circuits 2, 3, 7, 8, and 13 have been greatly improved by the addition of new iron and Kerite wire, to strengthen weak places, and improve the insulation.

The building of the new Warren bridge has caused much work to be done on the circuits, crossing there. Two complete changes have been required, thus far, to protect the wires from the work of the bridge-builders. A new armored cable has been laid, and a 12-wired aerial cable placed in service at this point. A new cable has also been laid at Meridian-street bridge, to connect the East Boston fire-alarm and telephone circuits.

The telephone service has been extended by the construction of 5 new circuits, and extending several of those previously built, so that, at the present time, the various houses of the department are all connected with head-quarters with the exception of Chemical Engines 3 and 5. It is intended to make an early connection with these two houses, which will make the telephone service of the department complete.

Fifty-seven telephones are now in use in this department.

Fifteen new signal-boxes have been put up during the past year, and 11 since the last report, making 330 boxes now in use. One box was discontinued during the year.

The keyless-door, which saves so much valuable time in giving alarms, has been applied to 26 fire-alarm boxes, in addition to 6 in use at the commencement of the year. Twenty-three more of these doors are all ready, and will be put on at an early day, and orders have been issued to supply all the boxes in the city proper with them.

The new apparatus for head-quarters, being a duplicate of that already in use, and intended to meet the growing wants of the fire-alarm system, has been received and mounted, ready for service. This consists of an 18-pin register, a bank of 18 relays and keys, and an annunciator for the same. The Serson & Kauffier battery has been purchased, to supply all the circuits, as previous experiments had demonstrated its superiority over the gravity battery formerly used. It requires less attention, lasts longer, and thus saves time and material.

The amount of stock used to do the outside work of the Fire-Alarm Department during the year was as follows:—

70 miles No. 9 iron wire.
4,000 feet Kerite wire.
12,000 feet lumber.
3,000 insulators.
3,000 insulator bolts.
4,000 lag screws.
650 feet 7-wired armored cable.
70 poles.
250 poles of other companies

During the present year it is the intention to rebuild circuits Nos. 2, 7, 8, and the remaining part of 13. No. 2 will be divided into two circuits for the better protection of the South End and Back Bay. Locations are assigned for 15 new signal-boxes, which have been ordered, and will be placed in service in a few months.

Four independent gong circuits, to cover the city proper and a part of Roxbury, are soon to be built with a view to improving the service by placing the box gongs on circuits apart from the large gongs and bells, and thus giving a double assurance of receiving an alarm.

A new counter has been designed, and ordered to replace the old fence which is now in service in the operating-room. The work will be performed by the Assistant Engineer Hey-

man and without any expense to the city. When completed it will be in keeping with the other improvements which have already been made in the Fire-Alarm office within a few years.

FIRES.

The number of alarms during the past year was 793, — the largest for any year since the establishment of the city.

The loss by fire from May 1, 1883, to April 30, 1884, with the insurance, was as follows: —

	Loss.	Insurance.
On buildings . . .	\$348,990	\$4,464,039
On contents . . .	\$649,564	3,517,768
	<hr/>	<hr/>
	\$998,554	\$7,981,807

The average loss per fire-alarm during the year was \$1,258. The number of fires during the year whose loss exceeded \$20,000 each, was 15, viz.: —

			Loss.

Notwithstanding the large number of alarms the city has been remarkably free from fires of any magnitude, and the

statistics show that in only 25 cases did the fire extend beyond the building in which it originated, and that of the 599 buildings in which fires originated 313 were only *slightly* damaged, and 149 not damaged at all. Of the alarms 292 were for fires extinguished by the department without a bell alarm; of 501 bell alarms 394 were for actual fires, 100 were needless, and 7 were false. During the year 32 second alarms, 10 third alarms, and 1 general alarm were sounded in addition to the first alarms given. In the summer months the department was called to extinguish a large number of fires in grass and brush in the outlying districts, which in many cases was due to carelessness, or of incendiary origin.

Of the causes reported 70 alarms were for the careless use of matches, or children playing with the same; 86 for fires of incendiary, or supposed incendiary, origin; 52 to the upsetting or explosion of kerosene lamps or careless use of kerosene stoves; 39 to overheated furnaces, ranges, and stoves, 23 to defective flues, and 39 more attributed to spontaneous combustion.

During the year there were 6 lives lost by fire, 1 person suffocated by smoke, and several injured.

"	"	"	"	7	F. Applebee,	Hoseman	June	9, 1883	249	Sprained hand and arm by fall from ladder.

POLICE.

The duties of this department are materially aided by the police at fires, and the record shows that, during the year, 191 of the alarms were given by them; and the Board begs to commend them for their vigilance in discovering fires, their zeal to give prompt alarms, and their efficiency in preserving order, when occasion requires.

PROTECTIVE DEPARTMENT.

The loss at fires by water is very much lessened by the efficiency of this department. The prompt action of the members of this force, and the good judgment shown by its officers during the past year, are commendable. This Board appreciates the continued harmony existing between members of this and the Fire Department, and their working in unison at fires shows good results.

THE FIREMEN'S RELIEF FUND.

The trustees of this fund have, during the year ending Dec. 31, 1883, received the sum of \$15,018.91 and distributed among sick firemen the sum of \$6,612.55. The annual ball of the department, of Feb. 21, 1884, netted the sum of \$13,135.25, and several citizens, in appreciation of efficient service rendered by the department at fires, have sent generous donations to the fund.

The total amount of money invested in bonds of the City of Boston is at present \$40,000.

HENRY W. LONGLEY,	} <i>Fire</i> <i>Commissioners.</i>
JOHN E. FITZGERALD,	
EDW. A. WHITE,	

APPENDIX.

The following tables show the location of the several pieces of apparatus in service or reserve, together with the name of the builder and when put in service ; also a statement of the hydrants and reservoirs in use, and the fires and alarms from May 1, 1883, to April 30, 1884.

Jonathan M. Morris,
Joseph W. Bird,
Granville S. Mendell.

Laborers.

Wm. H. Barker,

Chas. Penny.

David Isaacs,

Battery-man.

James Gethings.

A constant watch is kept at the head-quarters, City Hall, night and day by the operators. Each operator has assigned to him certain hours of duty, during which time he is responsible for the correct working of the apparatus in giving alarms, and all testing of the circuits and other details pertaining to the service. An automatic arrangement is connected with the receiving apparatus, by which assistance may be called from the sleeping apartments, if at any time the operator should be suddenly incapacitated by illness from performing his duties. No operator is permitted to sleep during his watch, unless expressly relieved by some one else, and by consent of the Superintendent.

Each operator is accountable to the Superintendent for any mistakes that may occur at the office during his hours of duty.

An accurate account is kept of the time of giving each alarm, and of the station from which it originates, and all other necessary information.

There are 330 fire-alarm boxes, divided as follows, viz:—

Boston	100
South Boston	32
East Boston	30
Roxbury	50
Dorchester	47
Charlestown	31
West Roxbury	23
